Math 403:01

Student information

Please print!

Name _____

Major(s) _____

E-mail address _____

A Rutgers e-mail address is best, *please!*

I'd like to post this information on a web page connected with the course. I hope this will help students get in touch with each other and work together. Do you consent to this? Please circle one:

YES NO

Students in this course should have had the Rutgers three semester calculus sequence and as well as courses covering basic linear algebra and ordinary differential equations. Have you taken these courses successfully? Please explain any negative answer.

_____

_____

_____

Briefly list any other courses you have had (course titles, not numbers!) with substantial mathematical content. Certainly such courses could include some from Computer Science, Physics, Chemistry, various engineering disciplines, etc., as well as math courses.
