Due in your recitation section, during the week of October 14

Please write your full name in capital letters on the front page of your homework, staple your homework, and write neatly; assignments that fail to satisfy these conditions may be disregarded. Provide full justification for your statements.

3.5: 24 (3 pts)
3.6: 18 (3 pts), 28 (6 pts), 40 (5 pts), 42 (3 pts)
3.7: 60 (5 pts), 70 (5 pts)
3.8: 12 (10 pts=5 pts for \(g(b)\), 5 pts for \(g'(b)\)), 24 (5 pts), 34 (5 pts)

It is your duty to make sure that you understand why points were taken off your homework and what the correct solution in each case is. You should therefore analyze your graded homeworks carefully and ask questions during the recitations and office hours.
