

Math 300 - Course Policies

Section 10 MW 6:10pm - 7:30pm, Scott Hall 216 CAC

Instructor: Nathan Corwin

Email: nacorwin@math.rutgers.edu

Office: Hill Center 517

Class web page: <http://www.math.rutgers.edu/~nacorwin/S16Math300/300.html>

Office Hours: Monday 3:30-6:00pm, Tuesday 11:30-12:30pm, Thursday 3:30-4:30pm, **and** by appointment.

Hour Exams: There will be two (midterm) (80 minute) exams, given in lecture. Each hour exam will be worth 100 points.

Exams will be closed book and student-prepared formula sheets will not be permitted. Note, the hour exams are written by the lecturers and different sections will have different exams.

The dates of the exams are as follows:

Exam I: Thursday, March 3

Exam II: Thursday, April 14

Prior notice is **REQUIRED** if an exam cannot be taken on schedule with the class. Make-up exams will **only** be scheduled with prior approval from me. Documentation of excuse may be required for a make-up exam to be approved.

Final Exam: The comprehensive final exam will be given on

Section 05: Friday, May 06, 8-11 am.

Section 06: Monday, May 09, 8-11 am.

The room for the final will be announced at a later date.

Course topics: The course will cover the bulk of the material in Chapters 1-4 of the text and one of chapters 5,6, or 7. The planned content of each lecture is described on the course schedule.

Grading: The term grade will be based on the results of the examinations and homework.

Hour Exams	200 points (100 points each)
Final Exam	200 points
HW	75 points
Quizzes	25 points
<hr/>	
Total:	500 points

Grading standards: The course grade is determined by the number of points the student earns out of a total 525 points. Approximate grade cutoffs are A= 450-500, B+/B= 400-449, C+/C= 350-399, D= 300-349, and F=0-299, HOWEVER, these cutoffs may be rescaled after the final examination has been administered. In addition, to receive a passing grade, you must earn at least

half the available points on exams.

Students whose exam grades all are near bare passing or are failing may fail the course in spite of numerical averages: students *must* show that they can do adequate work connected with this course independently and verifiably.

In particular, one must earn at least 200 of the 400 possible points on the exams in order to pass. Students who miss a significant number of classes may have their course grades lowered.

Homework: There will be fairly regular homework assigned. I expect to assign about 4 to 8 exercises a week, The HW pdf on Sakai and the course webpage will be kept up to date as to the assignments and the due dates.

No late homework will be excepted.

Directions for homework write-ups:

- Each turned in assignment is a short technical report. It should be a well-considered professional document; not a first draft.
- Write on one side only. Put your name on each page. Number pages. Maintain at least a one-inch margin on all four sides.
- Edit carefully. Use correct spelling and grammar.
- Begin each problem with a statement of the problem.
- Proofs should include english words, not just math symbols.
- Each homework problem will be graded on a scale of 0-5. Remember, the grader cannot grade your mathematics unless its exposition makes it clear what is going on.

I have been known to put homework problems on exams. Obviously, it is to your benefit to learn from doing the homework and to learn more from the reader's comments and from the class discussions.

Participation: Your participation in class is essential! If you have a question, feel free to raise your hand and ask. If I make a mistake, please correct me. If I ask a question, please speak up with your response.

Courtesy and Academic Integrity: Turn off and put away cell phones during class. If you need to leave class early or enter class late, do so quietly. Show respect to your fellow classmates at all times. All work you turn in must be your own. **ACADEMIC DISHONESTY WILL NOT BE TOLERATED AND MAY RESULT IN A FAILING GRADE FOR THE COURSE!**

For more information on the Rutgers University Policy on Academic Integrity, please look at:

<http://academicintegrity.rutgers.edu/policy-on-academic-integrity>

I reserve the right to make changes to the above class policies at any time.
