Comments: All the problems this week are from the text book.

“1.2.3” means “Chapter 1, Section 2, Problem 3”

“4.5.6.b,c” means “Chapter 4, Section 5, Problem 6, parts b and c”

I strongly recommend spending an 60-90 minutes a day (6 days a week) out of class working on this course. Some of that time should be spent reading the text and your notes. Most should be spent doing these problems. (Attempting problems should also involve reading the text and notes.)
